

Red Cross Memorial Children's Hospital

**An Opportunity for a Multiple Club,
Global Grant**

- **The Rotary Club of Knysna has two approved Global Grants in progress with overseas partners**
- **The Red Cross Children's Hospital is currently building a new ICU**
- **The First Phase building work is complete and has been occupied. The next requirement is for equipment**
- **During the DG's visit to Knysna in August, the idea of a multi club GG was proposed**

- The DG asked Rotary Knysna to propose a suitable project
- The Hospital supplied their equipment procurement requirements
- Rotary Knysna has selected the supply of
Multiparameter Monitors
- 29 Units are required

RI Areas of Focus for Global Grants:

“Disease Prevention and Treatment”

“Maternal and Child Health Care”

29 monitors @ estimated R200 000 each

= R5.8 million or US\$ 424 000

A global grant may not exceed \$200 000

Possible solutions:

- Split into two or more grants by several Districts**
- Bring the Government into the partnership**
- Use our international contacts to procure the equipment at lower prices**

In Summary:

The Red Cross Memorial Hospital is a truly worthy recipient

- 1. Has the correct project been selected?**
- 2. Does it meet the Rotary GG criteria?**
- 3. How should we configure the project:**
Clubs/Districts
